2012 SUMMER OPPORTUNITIES FOR YOUTH IN THE 12TH CONGRESSIONAL DISTRICT

Colleges and Universities throughout the 12th Congressional District have provided the following list of summer programs for young people. My office compiled this directory as a resource for parents, guardians, teachers and counselors to find positive activities for young people during the summer. The information listed in this guide was provided by the colleges and universities at my request and may not include all summer programs.

WAKE FOREST UNIVERSITY

Wake Forest Road
Winston-Salem, NC 27106
(336) 758-5000
www.wfu.edu

www.uncsa.edu/summer

- **Dance** (open to students 12-21 years old)
  Classical ballet or contemporary? The best dancers display the discipline and versatility that draw from both worlds. In this unique five-week program you'll spend time learning contemporary, ballet and hip hop techniques. And you'll learn from instructors who are professional dancers as well as gifted teachers and mentors.

- **Filmmaking** (open to high school students, aged 15 and up, and rising college freshmen)
  Explore every aspect of the exciting world of filmmaking. At Studio Village, UNCSA's own movie set, you'll try your hand at screenwriting, directing, cinematography, editing and producing. You'll experience for yourself the creative, analytical, organizational and cooperative elements of movie-making, and wind up your five-week intensive with a festival where all students' original films are screened.

- **Stage Combat** (Introductory program open to students aged 15 and up. Basic and Advanced programs open to actors, dancers, directors, stage managers, choreographers and teachers 18 and up)
  This summer, pick your fights at UNCSA, the scene of the only National Stage Combat Workshop endorsed by the Society of American Fight Directors, and taught by select members of

that organization. Stage fighting is an essential skill for actors, and helpful to their teachers and directors too.

- **Acting** (open to students aged 15 and up)
  All the world's a stage at this action-packed three-week program. You'll learn the fundamentals of acting, movement and speech, with classes in improvisation, dance, singing and circus skills. And you'll have the performance opportunities you're looking for, including a chance to write, direct and perform in an original play.

- **Music** (open to students aged 12 and up)
  You've practiced and practiced, and here is your chance to perform! You'll study with inspiring artist-teachers and perform often in a variety of ensembles, all in the excellent studios and performance spaces of a highly-regarded conservatory. One-two-and three-week programs are offered for a range of instruments, voice and composition. For strings, piano and harp students, the Chamber Music Institute provides performance opportunities that are as hard to find as they are valuable and exciting.

- **Visual Arts** (open to students aged 14 and up)
  A passion for making art is the pre-requisite for this intensive; lack of experience is not a drawback. Here you'll spend 8 hours a day on your art. Gifted teachers will guide you in understanding the techniques and terminology, the history and philosophy, the process and the practice of visual art. Through classes in design, drawing and sculpture, you'll explore and develop your own talent and skill.

    Contact: Monica Hill (ncsma@unc.edu) (919-962-4639 or 1-888-562-6276)
  - **Carolina Sports Journalism Camp**
    Targeted Youth: Rising 12th graders
    Dates: June 27-30, 2012
    Description: Includes classroom study and newsroom practice. Features visiting sports reporters and sports personalities. Includes instructional sessions on sports play-by-play, sports writing, sports photography and more.
    Contact: Monica Hill (ncsma@unc.edu) (919-962-4639 or 1-888-562-6276)
  - **Chuck Stone Program for Diversity in Education and Media**
    Targeted Youth: Rising 12th graders
    Dates: July 8-13, 2012
    Description: Brings to Carolina's campus 12 talented high school students from diverse backgrounds across the US for an intensive one-week summer workshop in journalism and mass communication.
    Contact: Queenie Byars (qbyars@email.unc.edu) (1-888-562-6276)

- **Morehead Planetarium and Science Center**
  - **Morehead Summer Science Camps**
    Targeted Youth: Grades K-8
    Dates: June 11-August 17, 2012
    Description: Designed for four different grade levels with unique curricula for each level. Camp themes include space exploration, dinosaurs, solar energy, chemistry, LEGO model design, rocketry and forensic science.
    Contact: Lindley Barrow (919-843-7334)
  - **Morehead SciVentures**
    Targeted Youth: Grades 6-8
    Dates: July 16-August 10, 2012
    Description: Combines lab experiences with field work. 2012 theme is ROVing the Universe, and exploration of how scientists use Remote Operated Vehicles to explore other planets and moons, deepwater marine environments and other places difficult for humans to explore directly.
    Contact: Lindley Barrow (919-843-7334)
  - **GSK Science in the Summer**
    Targeted Youth: Grades 2-8
    Dates: June 18-August 17, 2012
    Description: Produced for GlaxoSmithKline and hosted by libraries and other community sites in nine Piedmont counties (but not on any UNC sites). Offers one-week, half-day programs for grades 2-3 and grades 4-5. For grades 6-8, there is a three-day, half-day program that includes activities on a mobile science laboratory operated by Morehead's DESTINY Traveling Science Learning Programs. FREE and fully funded by GSK with online registration. One session per child.
    Contact: Crystal Harden (charden@email.unc.edu) (919-843-8496)
  - **TWC Minds On!**
    Targeted Youth: Elementary grades
    Dates: TBD
    Description: Produced for Time Warner Cable. One-week, half-day enrichment program designed for children participating in Boys and Girls Club programming in Wake and Durham countries. FREE and fully funded by TWC.
    Contact: Crystal Harden (charden@email.unc.edu) (919-843-8496)
- **Math and Science Education Network (MSEN)**
  - **Middle School Summer Academy (MSSA)**
    Targeted Youth: Rising 6th, 7th, and 8th grade students
    Dates: contact program coordinator for dates
    Description: Interactive exploration of various fields of math and science. Hands-on and activity-driven.
    Contact: Dianne Affleck (919-962-9362)
  - **High School Summer Academy (HSSA)**
    Targeted Youth: Rising 9th, 10th, 11th, and 12th grade students
    Dates: contact program coordinator for dates
    Description: Exploration of science, mathematics, technology careers and communication through inquiry and investigations.
    Contact: Dianne Affleck (919-962-9362)
  - **STEM Academy**
    Targeted Youth: For participating MSSA and HSSA students only

- **Half Day Junior Sports Camp**
  Targeted Youth: Co-educational fun for ages 4-6
  Dates: Arrive 8:30 a.m.—Depart 1:00 p.m. June 18-22; June 25-29; July 2-6 (no camp July 4); July 9-13
  Description: Carefully planned activities keep the learning program interesting, fun and not exhausting. High activity exercises are spread between less physically-demanding activities. Groups of comparable development will be created so the campers can develop at their individual rates. Swimming is taught and used as cool downs in high temperatures. Emphasis is on small equipment for development of eye-hand coordination, stamina, strength and balance and ball awareness skills. Team interactions and cooperation are emphasized. Enjoyment, not competitive results, is our objective
  Registration Deadline: Registration and full payment are due no later than two weeks prior to camp.
  Cost: First week of enrollment…$149; Additional weeks added…$134…There is a 25% discount for each additional sibling.
  Contact: www.salemacademy.com 336-721-2732

- **Half Day Senior Sports Camp**
  Targeted Youth: Co-educational experience for ages 7-11
  Dates: Arrive 8:30 a.m.—Depart 1:00 p.m. June 18-22; June 25-29; July 2-6 (no camp July 4); July 9-13
  Description: These campers are introduced to the fundamentals of the sports. Campers spend time with staff members learning both individual (swimming, tennis, golf and archery) and team sports. Rules, strategies, skills and competitive knowledge will be taught.

Registration Deadline: Registration and full payment are due no later than two weeks prior to camp.
Cost: First week of enrollment…$149; Additional weeks added…$134…Camp rate for Session III (week of July 2-6) the rate is prorated to $119

- **CPCC Kids Kamp**
  Ages: 6th-12th Graders
  Dates: July 23-July 26, 2012
  Description: At CPCC's Forensic Kids Kamp, kids will learn the science of a crime scene and how to process it. Kids will also learn about fingerprints, footprints, photography, general and digital forensics. They will be casting and molding shoe impressions, developing and lifting fingerprints, collecting and documenting evidence, analyzing documents, hair and fibers, and maintaining the chain of custody of evidence.

- **Students Engaging in Entrepreneurial Development (SEED) Camp**
  Ages: high school juniors and seniors (age 16+)
  Dates: June 18-21 and June 25, 2012 from 9:00 a.m.-3:00 p.m.
  Description: The SEED summer camp is aimed at high school students considering entrepreneurship as a career option. The program allows participants to explore business opportunities and learn essential elements for launching a successful venture.
  Website: http://www.cpcc.edu/einstitute/entrepreneurial-youth-camp

- **CPCC Engineering Summer Camp**
  Ages: 9th-12th Graders
  Description: The Engineering Summer Camp will introduce students to science and engineering concepts and principles. The camp will provide participants a clear understanding of how math, science, and engineering converge and complement one another. Through "contextual learning" activities and projects participants will build, analyze, and test their own machines such as a quadcopter or 3D printer while learning fundamental concepts of electrical, mechanical, and computer engineering disciplines. This will instill confidence in students that their creativity can be used to develop useful products.
